

Tissue Paper Flowers

What You Need:

Pastel colored tissue paper or tissues

Chenille stem or pipe cleaner

Scissors

Ruler

How To Make Them:

1. Cut tissue paper into rectangles of desired size (5"x7" works well), or use tissues, opening any folds.
2. Stack 4-6 pieces of tissue paper. Use the same color or different colors.
3. Fold the tissue in accordion pleats (like a fan), working from the long side.
4. Wrap one end of the chenille stem or pipe cleaner around the middle of the folded tissue paper.
5. Gently separate each layer of tissue paper by pulling upwards toward the middle of the flower.
