

WORD FUN: "UN" and ALLITERATION

Darcy and Daddy use many words that start with the letters "un." When letters are added to the start of a word to give the word a new meaning, they are called a prefix. The prefix "un" usually means "not." For example, the word unkind means "NOT kind." Circle the words that start with "un" in the sentences below. Write what you think each circled word means, on the line next to the sentence.

Just uncrumple your list and come downstairs. _____

Alliteration happens when words that start with the same sound are used close together in a phrase or sentence. The sound is usually a consonant, and the words don't have to always be right next to one another. In the sentences below, circle the words that create alliteration.
